

2120 | touring | performance | Carbon/Aluminum

HARRY'S NOTEBOOK: "Our Wrench Force roadies whispered in our ear to get a high performance road triple out there. Here's a hot aluminum/carbon racer that'll have you hammering in triplicate."

Features/Benefits

- USA-made, 3-tube carbon frame ABT bonded to aluminum lugs is light, strong, smooth riding and raceable
- Shimano 105SC triple group with STI Dual Control shifters make shifting easy without moving hands from bars
- Welded and machined Matrix Aurora rims deliver lightweight performance and great braking
- Triple chainring for optimum gearing up and down hills

Upgrades from 1220

- Carbon fiber composite main frame with epoxy bonded aluminum fork
- Full Shimano 105SC group with STI Dual Control shifters
- Shimano SPD M535 clipless pedals
- Union USA 14/15G double butted spokes
- Continental Super Sport Ultra tires
